Target version:	1.7		
Forum topic:			
Description			
<p>Wine detection needs to be added in order to be able to handle differences between Wine and Windows properly. Platform detection for Windows 7 and 8 needs to be added. Auxiliary functions (IsWindows, IsMac, etc.) are needed for detecting platform groups such as all Windows platforms conveniently and centralized at one place.</p> <p>Refers to CPC 1.7 rc5 change list item 41 and 42.</p>

Associated revisions

Revision 9af4b39d - 03/26/2015 11:01 AM - J. Templ

Platform detection added for wine, Windows 7, and 8. Refs: #33.

The changes are as proposed in CPC 1.7 rc5 plus:

- a bug fix in HostDialog.IsWine where the flag isWine must be set in case of TRUE
- changes added to System/Docu/Dialog.
